

The Days of Noah and Lot

Lesson 11

As It Was In The Days Of Noah

Warnings Then	Reaction	Warnings Now	Reaction
The Predictions of Adam	For 1300 years, warnings that the world would be destroyed by water circulated through Adam's descendants. People were "eating, drinking, marrying, and giving in marriage, until Noah entered the ark and God shut the door" (Mat 24:38). Extreme prosperity may give people a false impression of security. Busy people often forget to discern the time.	The Oral Prophecies	The Holy Spirit is speaking to the family of God around the world. He is whispering in the spirits of His people that the return of Christ is near. Prophets predicted both the first and second comings of Christ. If Jesus fulfilled the many promises of His first appearance, and we know He did. He will certainly fulfill the promises of His reappearance (John 14:1-3)
Record In Brick and Stone	Seth's grandson's record of Adam's prediction carved in brick and stone was a constant reminder to Adam's descendants of upcoming worldwide judgment. This was a constant reminder from a righteous man that humanity's wickedness would in the future, incur the wrath of God.	The Word of God	Today we have 66 books in the English translations of the Holy Bible that disclose God's outline of redemption and the future Messianic kingdom. The NT alone contains about 318 references to Christ's return.
Methuselah's Testimony	Methuselah's name indicted that his death would initiate a drastic change on earth. Every time someone greeted methuselah, they understood the meaning of his name, and was reminded of Adam's prediction.	The Spoken Word	God always sends a messenger before times of great danger, or before seasons of major fulfillment of prophecy. Today we have the personal testimonies of believers. These "Methuselaha's" preach Christ's return.
